We're excited to share a survey on behalf of our [Coro](#) friends. A couple of the Fellows are conducting research into how Angelenos get around their city, and what their attitudes are towards alternative modes of transportation. The survey is quick and will provide some fantastic insights for their research! The Fellows are looking to reach as wide an audience as possible, and gather information and opinions from all types of Angelenos. Your voice is important! If you have the time, please fill it out and share with your Los Angeles network of friends. We hear there may even be prizes for randomly selected participants...

Hello!

We're conducting a study as part of our fellowship to better understand attitudes toward sharing the streets in Los Angeles.

We are interested in responses from all walks of life. Whether you ride a bike, drive a car, walk, use transit, skateboard or scooter, we want to hear from you. It would greatly help our research if you could take the survey yourself, and also share the link to your extended Los Angeles networks.

The survey takes about 10 minutes, and respondents can choose to be entered in a raffle for a chance to win one of our prizes.

Thanks for your help! Here is the survey link: <http://goo.gl/tkrFHd>
